Message:

Hello Kristin it's Mike Lucente.

Was wondering and without stepping on people's toes.

I would like to request two(2) SLOW CURVE signs between my property on the telephone poles.

I've lost several mailboxes due to people speeding around the curve since we moved in and I feel this would slow the rate of traffic considerably.

Let me know your thoughts on this and again, it's not a priority, and I appreciate your input. Thanks again for all your help and cooperation.

Good morning Kristen.....

It's Michael Lucente 21 Folsom Street.

We spoke in March about possibly putting up SLOW CURVE signs on Folsom Street and Merrick Street in front of my property on the utility poles. It's definitely a speeding issue and like I stated, several times, my mailbox has become a victim. You advised me that you needed to contact the police and highway departments for approval. I appreciate if anything could be done and again, I truly do not want a major production, involving my neighbor especially. Any new developments please let me know. Once again I appreciate all your help and cooperation in this matter. Have a good day! Thanks

Hello Kristen:

The type of sign that Michael is looking for does not require a study or permission from the state. Dennis could install them only if he feels they would be of some benefit.
